

Communication with the Public (Oral or Written)

In situations where communication (oral or written) could be hindered because some persons in attendance are of limited English speaking skills, the school site or District will provide for competent (verifiable) translators.

Professional translators will be hired in the following situations:

- 1.) Where discussion of proposed board policy/site decisions will have a major impact on students.
- 2.) Where discussion is occurring on any proposals for new educational programs; or
- 3.) Where there is a significant number of limited or non-English speaking persons present where the issues being discussed are of particular interest/concern to those present
- 4.) Where there are expulsions or other hearings related to students.
