

Summer School

The Governing Board recognizes that summer school provides valuable opportunities for students to improve their basic skills and make academic progress. To the extent that need is demonstrated and adequate funds are available, the Board may authorize the Superintendent or designee to establish summer school day and/or evening classes for purposes of remediation, enrichment or acceleration.

At the elementary level, the district may offer instruction in any branches of study authorized and prescribed for elementary schools. (Education Code 51730)

At the secondary level, the district shall provide all summer school offerings mandated by law.

Secondary classes also may be offered in mathematics, science, or other core academic areas designated by the Superintendent of Public Instruction. (Education Code 37253)

(cf. 6117 - Year-Round Schedules)
