

# COVID-19 STUDENT TESTING

## COVID Testing Information/ Registration and Consent Form

In an effort to reduce student absences and loss of learning, our Corcoran Unified School District Health Team will be offering on-site COVID-19 testing for students who are exhibiting COVID-19 symptoms or for students who are considered a close contact.

### COVID-19 Testing Protocols

1. The Corcoran Unified School District Health Team will contact the parent if the child exhibits COVID-19 symptoms.
2. Parents will have the opportunity to give permission for the health team to administer and/or facilitate a nasal swab COVID-19 Test.
3. If consent is given by the parent for COVID-19 testing, the parent/guardian will register their child with the QR code below. This registration would only have to be done once and not every time the child is tested.
4. The site RN or LVN or other trained employee will facilitate the child's self-swabbing in the school office. After collection, the test will be sent for processing.
5. If your child is exhibiting symptoms, they will be sent home from school until negative test results are received and/or they have completed the recommended quarantine time.
6. If your child has been exposed to a COVID-19 positive individual in the school setting, it is recommended that they test between Day 3 and Day 5 of the last exposure date, or sooner if they become symptomatic. They can remain in school if asymptomatic.
7. Once COVID-19 results are received by the parent/guardian, we ask that parents share the results with the school for further direction. If results are from a Home COVID Test, please take a picture of the test results and include the student's name and date of test.
8. Parents can take your child for testing at the Annex from 1:30-2:30 pm Monday-Friday. To register your child, point your cell phone camera at this QR code:

Thank you,

Corcoran Unified School District Health Team

### Symptoms of COVID-19:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If your child develops any of the above symptoms, please notify the school and your healthcare provider for further instructions.

If you have any questions or to report your student's symptoms, please contact your student's school.
