## 2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

independent study program. Corcoran Academy offers an educational option within the district and the city of Corcoran for students who are expelled for non-mandatory reasons and are then granted a suspended expulsion. Corcoran Academy is committed to providing elementary and high school students with individualized attention in a safe, supportive, and cooperative learning environment that celebrates each student's diversity and unique educational needs.

Corcoran Academy's staff recognizes that each student is unique and special. Our caring staff and programs help students discover their full potential, accomplish their academic goals, become active participants in their community, value lifelong learning, explore their future career, college, and personal goals, and achieve success in whatever path they choose after high school. Learning through independent studies is a combined effort involving students, family, community, and school. Together, we strive to provide students with an alternative learning environment that is safe and supportive and fosters each student's academic success.

A. Conditions of Learning

**State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## 2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The K-5 students use the books from the school campuses that they came from, this is also true for middle school students. Edgenuity is generally utilized for 9 -12 grade students but sometimes for high performing middle school students as well.

School Facility Conditions and Planned Improvements

Corcoran Unified School District receives funds from the Williams Settlement; therefore, district personnel are required to conduct an extensive facilities inspection. The condition of the facilities and grounds is important. In preparation for this report, the Director of Maintenance, Operations, and Transportation and the Chief Business Official provided the necessary information. The chart below shows the general condition of the site. Good repair is defined as maintaining schools that are clean, safe, and functional.

Kings Lake Education Center (Corcoran Academy) facilities are in good repair. Over the past year, extensive work has been done at Kings Lake Education Center. New cement was laid, and front fences were removed and replaced with temporary fencing to prepare for a new food preparation building. The old shack, which served as the original food prep area, was removed along with the cement surrounding it, leaving dirt. The timing of the installation of the new building had to be moved back because of a "guy wire," which PGE owns. The installation of the new building would require the guy wire to be removed, and this can only be done by PG&E. PG&E was notified, and we are now subject to their time frame. Consequently, temporary front fencing and open dirt remain where the old food prep shack stood. The campus is not completely secure, as there is an opening from removing the fencing behind the shack.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

### 2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement
<p>Corcoran Academy communicates with parents in various ways, including campus events, written notices, phone calls, emails, parent square message system, district and school websites, and newsletters. We have an open-door policy and welcome parents at any time. Due to the nature of instruction at Corcoran Academy, parents are encouraged to participate in their child's education. We ask parents to ensure students complete their assignments and arrive at school and classes regularly and on time as scheduled. The teachers are encouraged to contact the parents regularly in multiple ways with updates on their students' academic progress, attendance, and behavior. Teachers make regular calls to the parents of their students, giving them information about their children. Parents are also invited to our back-to-school night, allowing students to show their progress and growth.</p> <p>Events on campus also provide opportunities for parent involvement at MCDS. The School prides itself on offering cultural events that reflect the student body, providing parents with opportunities to volunteer, speak, or supervise. Additionally, the School Site Council keeps parents abreast of the Single Plan for Student Achievement (SPSA), goals, priorities, and strategies for improving student outcomes, including instructional methods and support services. The council provides input on Title I funding, state/local funding, and a host of other school-related items.</p> <p>You may request additional information by calling the school office personnel at (559) 992-8885.</p>

## 2024-25 School Safety Plan

Corcoran Academy prioritizes maintaining a safe and secure learning environment. To fulfill the requirements of Senate Bill 187, the school developed the Comprehensive School Site Safety Plan in collaboration with local agencies and the district office.

Our plan is updated annually and includes emergency procedures, exit routes, and inventories of emergency supplies. Local law enforcement has a copy of our School Safety Plan and a school map. Safe school routes have been determined and

included in the Comprehensive School Safety Plan in conjunction with local law enforcement, the fire department, and city officials. Due to various schedules, staff members review the School Safety Plan at different points during the school year. Students and staff participate in monthly drills, and the staff is debriefed following each drill to improve our safety procedures. Students at Corcoran Academy participate annually in Digital Citizenship Safety Training. A perimeter fence surrounds our school, and all visitors must check in at the office upon arrival. All volunteers must complete a district application and receive the appropriate clearances before volunteering or chaperoning at a school site or during a school trip. Parents and volunteers also have their IDs scanned through the RAPTOR security system upon entry to the campus and when interacting with students.

A copy of the Comprehensive School Safety Plan is available in the school office for parent review with the site administrator upon request.

The Comprehensive School Safety Plan was last reviewed, updated, and discussed with the school faculty on September 18, 2024.

## Fiscal Year 2023-24 Types of Services Funded

Corcoran Academy utilizes various textbooks in line with the grades and schools from which the students come. This means that, in terms of textbooks, we use multiple publishers that are all appropriate for the students and the level of learning they need. Edgenuity is an online software we use to expand our selection of A-G courses. Corcoran Academy is committed to providing elementary and high school students individualized attention in a safe, supportive, and cooperative learning environment that celebrates each student's diversity and unique educational needs. Corcoran Academy staff recognize that each student is unique and special. Our caring staff and program help students discover their full potential, accomplish their academic goals, become active participants in their community, value lifelong learning, explore their future career, college, and personal goals, and achieve success in whatever path they choose after high school. Counselors for career goals, social-emotional needs, and special education are also offered to our Corcoran Academy students. Learning through independent studies involves students, families, the community, and the school. Together, we strive to provide students with an alternative learning environment that is safe and supportive and fosters each student's academic success. Corcoran Academy also utilizes "PAPER" to assist students after hours with their work. PAPER is customized, state-aligned, high-impact tutoring with detailed reporting designed for impactful academic results. Students can engage with PAPER or additional tutoring that they can schedule with the Corcoran Academy teacher.

Title I, Part A: Targeted School: Funds are provided for academic services to children who are identified as failing or at risk of failing to meet state standards. These funds are used to purchase additional instructional materials and services to support the academic needs of students struggling to meet state standards.

Title II funds New Teacher Induction for our staff. New Teacher Induction provides our new teachers with a mentor for the year. The mentor supports the teacher with strategies and feedback to assist in supporting instruction in their class and help support their students' academic achievement.

LCFF funds are provided to support our PBIS efforts throughout the year.

## Professional Development

Professional development is ongoing to ensure our staff stays current with new learning strategies, innovative teaching techniques, and applied technology in the educational and classroom fields.

At the beginning of the school year, the Mission Community Day School (MCDS) campus teachers participate in a four-day staff development training. Training with the Guiding Coalition helps support the push for PLCs throughout the district. The PLCs are designated to meet on Wednesdays to discuss planning, data, and the next steps in the classroom and curriculum. Professional development for the staff further includes sexual harassment training, mandated reporter training, safety protocols, and procedures.

The administration was also trained in positive school climate, restorative justice practices, and Multi-Tier Systems of Support (MTSS) to further benefit the student population. Trips to other campuses within and outside the district also occur to expand learning and share best practices. The Kings Lake administrator also participated in the application reading and selection process for Model Continuation Schools. Two site visits were also part of the process. Attendance accounting through Parsec, laws, and safety protocols are other topics on which the district trains staff and administration. The Tulare County Office of Education offers training for our teachers and ongoing professional development during the academic school year. Coaching, teacher-principal meetings, student performance data, PLC meetings, our county office of education - Kings County, training, and conferences are all part of our ongoing professional development.

Furthermore, teachers are involved in internship programs that constantly check in and monitor the teachers in creating and performing specific targeted lessons. NTI mentor meetings for my probationary teachers occur every month to keep them compliant with the county and help support them with professional teaching standards to clear their credentials. New interns are also partnered with a mentor teacher onsite.

The district also provided training for the Community Contacts on attendance accounting, family information gathering, parent engagement, customer service, home visits, data entry in SIS, and student information data entry. Paraprofessionals also attended training on addressing social and emotional issues that students may face. Paraprofessionals and teachers also had training on working with small groups of students in EL programs, such as iLit training and managing difficult students. Additionally, the staff received training on the new curriculums purchased for the students.
